Applicant Analysis / First-Year Enrollment

Dental Assisting

1981/82

SUPPLEMENT 4
TO THE
ANNUAL REPORT 1981/82
DENTAL AUXILIARY EDUCATION

Division of Educational Measurements
Council on Dental Education
American Dental Association
211 East Chicago Avenue
Chicago, Illinois 60611

August, 1982

This report, Applicant Analysis/First-Year Enrollment - - Dental Assisting, 1981-82, contains information gathered in the Annual Survey of Dental Auxiliary Education Programs, 1981-82. The information reported here is divided as follows:

Table 1 Admission Policies

Table 2 Applicant and first-year enrollment data

Table 3 Criteria used in admission process

Table 4 Programs that accept out-of-state or out-of-district students

Table 5 Programs with provisions for advanced placement

Table 6 Level of education of students entering first year

In 1981-82, 127 students without minimum requirements were admitted to the dental assisting programs (Table 1).

The total first-year enrollment in 1981-82 was 7,886*. The 294 accredited dental assisting programs in the United States received a total of 13,336 applications for admission. Out of the 13,336 applications, 417 were from men and 12,919 were from women. Eighty-two percent of the applications from men met the minimum requirements

* In the Annual Report on Dental Auxiliary Education, 1981-82, the total first-year enrollment in dental assisting programs was reported as 7,872. This discrepancy was due to information reported by one program after the publication of the Annual Report on Dental Auxiliary Education, 1981-82.

for admission, while 80% of the applications from women met the minimum requirements for admission. Since not all programs reported such information on their applicants, these percentages are based on only those applicants for whom this information was reported (Table 2).

Two hundred and sixty-nine programs indicated that out-of-state applicants would be accepted, while one hundred and sixty-seven indicated that out-of-district applicants would be accepted. Among those offered admissions, 278 were out-of-state applicants and 585 were out-of-district applicants.

The two-hundred programs which indicated a provision for advanced placement admitted with advanced placement a total of 519 applicants.

The level of education of the first-year class in dental assisting programs is as follows: 77.2% of the students had a high school diploma or equivalent; 18.8% had completed either 1 or 2 years of college; 0.8% had earned an associate degree; 1.2% of the class had completed either 3 or 4 years of college; 0.4% had earned a baccalaureate degree; and 1.4% had completed other levels of education. These percentages are based on the 7,629 first-year students for whom such information was provided.
